

GT FULL TURBINE KIT GT3240

for LANCER EVOLUTION X (CZ4A)

The GT3240 Full Turbine kit helped propel the HKS CZ200S (CZ4A) to a record lap time of 59"495 at the famed Tsukuba Circuit on street tires.

Features

- GT3240 turbine rated up to 580HP eliminating the problem of boost and power drops in the high rpm ranges.
- Utilizes the stock exhaust manifold in conjunction with a heat resistant steel adapter to mount the turbine and the 50mm GT II wastegate. Design assists in durability and heat dissipation.
- Included HKS Front Pipe and Bypass Pipe are designed to be used with stock catalytic converter.
- GT3240 Full Turbine kit is compatible with other HKS products (Piping Kit, Intercooler Kit, Racing Suction Kit)

Kit Components
GT3240 Turbo 54T A/R 0.73
GTII Wastegate 50mm
Front Pipe 70mm
Turbo Outlet Pipe
Suction Pipes
Oil Lines
Support Parts

Remarks

- Requires clearance modifications of transfer case for installation.
- Average installation time: 10 – 12 hours.
- HKS Super Fire Racing spark plugs, M45XL, are recommended.
- No engine management or fuel system is included with this kit
- Requires HKS Racing Suction Reloaded (70020-BM007) & Front Mount Intercooler (13001-AM006) or Intercooler Pipe Kit (13002-AM003) *sold separately*
- Cannot be used with HKS Front Pipe (33006-DM001) which was designed for the stock turbine.
- This kit is designated for OFF-ROAD USE ONLY
